AIRPORTS CUSTOM TINS

Want a tasty way to increase your airport's visibility? **Bridge Brands Chocolate's Custom Tin** program is a perfect way to create delicious and effective branding opportunities for your airport.

Whether arriving or departing, a custom screen print or digital labeled tin of gourmet chocolate is a great pick-up for customers passing through your airport's gift shop.

Just provide us with your artwork, and the type of chocolate you want included in the tin, and we'll do the rest. Our 3.5 oz metal tins act as keepsakes long after the delicious gourmet chocolate inside has been eaten.

Customers love to use the empty tins to store pencils, nick nacks, tackle, or just about anything else. And with your hotel's logo on the front of the tin, they'll never forget their travels with you!
