

# SAN FRANCISCO LANDMARK COLLECTION

A favorite with visitors and locals alike, our San Francisco Landmark Collection tins feature the sights and locales that have made San Francisco one of the most popular travel destinations in the world. Filled with either our creamy milk or decadent darkchocolate, these elegantly designed tins make beautiful keepsakes – emptying them of their delicious chocolate is only half the fun!

### Cable Car

Despite extensive damage inflicted by the 1906 earthquake, cable cars still clang their way up and down hills of San Francisco, the last manually-operated cable car system in the world, depositing delighted visitors and savvy locals alike to their destinations.

### Alcatraz

Once a maximum security prison, informally dubbed “The Rock,” the world-famous island became a protected wildlife refuge in 1963, and has been a top tourist attraction ever since. Alcatraz is also home to the oldest operational lighthouse on the West Coast of the United States.

### Golden Gate Bridge

Since its completion in 1937, the Golden Gate Bridge has become an international symbol for San Francisco and the greater Bay Area, and is perhaps the most beloved of the area’s many wonderful landmarks. Painted its distinctive orange hue to stand out to ship’s captains on San Francisco’s infamously foggy days, the Golden Gate Bridge is perhaps the most beloved of the area’s many wonderful landmarks.

### Fisherman’s Wharf

Famous for its clam chowder served in sourdough bread bowls, Fisherman’s Wharf is a seafood-lover’s delight, with fresh crab, shrimp and other briny treats proffered by fast-talking street vendors and white-tablecloth restaurants alike.

### Palace of Fine Arts

The Palace of Fine Arts was built for the Panama-Pacific International Exposition in 1915, and is the last, glorious vestige of San Francisco’s only world’s fair. Surrounded by an emerald-green park and duck pond, the colonnaded Palace dome is a unique sentinel to visitors driving into San Francisco from the Golden Gate Bridge.

### Lombard Street

The one block section of Lombard Street between Hyde and Leavenworth Streets – a series of eight switchbacks created in the 1920’s to navigate the 40-degree slope of Russian Hill – is known as “The Crookedest Street in the World.”

### Ferry Building

Built in the late 1800’s, the Ferry Building withstood almost 150 years of constant use, benign neglect, and at least two huge earthquakes. But the Ferry Building is once again a proud San Francisco landmark. Light streams in upon a dynamic public marketplace, illuminating a beautiful building already infused with an illustrious past and the promise of a vital future.

### SF Landscape

This image appeared on our first products and remains a favorite with customers. The distinctive San Francisco skyline forms a silhouette against the setting western sun, a sight that lucky residents and visitors are treated to almost every day (fog permitting)!

### Victorian House

Noted for their elegant architectural details and elaborate, multi-hued façades, Victorians are a symbol of San Francisco’s past history and modern-day character.
